■ **ABOUT:** Architect and Designer transitioning career into the tech field. With the same passion I was used to design chairs, interiors, or beach houses of dreams, my mission as a full-stack web developer is to create innovative and thoughtful web applications that will bring joy, satisfaction and establish a strong emotional connection to the end user.

■ **WEBDEVELOPMENT EXPERIENCE:**

GENERAL ASSEMBLY BOSTON – WEBDEVELOPER IN TRAINING :: **Aug 2017 to present.**

Full-time immerse student in the WDI (Web Development Immersive) Fall Class 20 coding bootcamp. Learned and practiced state-of-the-art technologies that reflects current best practices in the tech industry, for both front-end and back-end web-development (full-stack). Developed, tested, debugged and released 4 projects that simulates real world coding problems.
